I am a passionate, 21 years old Full Stack Developer with more than 1 year of experience in the field. During this period of time, I learned and practised HTML, CSS, JavaScript, React, MongoDB and ExpressJS to craft websites with stunning design and complex functionality. I really enjoy communicating and learning something new everyday.

Skills

- Expert: HTML, CSS, JavaScript, Git version control
- Advanced: React.js, Express.js, MongoDB
- Basic: UI/UX Design, Figma, Photoshop

Work Experience

Artroom Design Studio - Full Stack Developer (Freelance)
https://artroom-design.com/

2022-2023

- Designed, developed and maintained a website according to client's needs, using HTML, CSS, JavaScript, ExpressJS
- Created a custom admin panel with authorization and authentication systems for client to manage content
- Implemented a database connection to store content in cloud using MongoDB

Education and courses

- The Web Developer Bootcamp 2023 By Colt Steele
  https://www.udemy.com/course/the-web-developer-bootcamp/

- Learn React Course 2023 By Bob Ziroll
  https://scrimba.com/learn/learnreact

Personal projects

Personal website - https://sarcasacras.github.io/
Was created to showcase my portfolio, built using HTML, CSS, JavaScript and React.js

G-Setup - https://sarcasacras.github.io/g-setup/
The main goal was to create a template for future e-commerce projects. Front-end implemented using HTML, CSS, JavaScript and libraries. Hosted using Github Pages.

D2 Develelopment - https://d2.up.railway.app/
Portfolio project. Tried to use all of the technologies i learnt to built a website for a development company, to sell their services and showcase their work. Front-end implemented using HTML, CSS, JavaScript. Back-end implemented using Node.js (Express.js framework), MongoDB. Hosted using Railway services.
